PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	References need to be reviewed because they are limited to the case of India. There are no other references in the world. This means that at the level of the discussion you have to compare your results to those obtained by other authors throughout the world. Why choose the study period 1970-71 at 2004-05? Is there no data for the last few years? The article is a bit long	
Optional/General comments
