SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	**Ms_AJEE_35972**
Title of the Manuscript:	**DELINEATION OF RIVER WATERSHED AND STREAM NETWORK USING ILWIS 3.7.1 ACADEMIC**
Type of Article:	**Original Research Article**

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	**Authors' response to final evaluator's comments**
Line 23-68: where is your clear problem statement and the benefit of this research finding? Please state your problem and the importance of this finding? **Line 70-121: Please follow the proper manuscript format so insert this section in methodology or introduction section. This is not important for the reader here, it need complete summarize sentence under methodology. Similarly, it needs citation of the source. Or use this in the methodology section with short summary and citation.** **Line 128: change this figure and better to use map of the study with topography. Please use proper map of the study site within Nigeria. It is important for the reader to known about study site.** **Line 130-145: This is the techniques used so need an independent section under methodology. In general it is repetition of the above listed section so delete the above section before methodology.** **Line 164-192: where is your discussion with other findings elsewhere or related topic?** **Grammar and typographical errors are still observed so it require error check-up and editing by experienced authors** **General Comment: The author(s) has accepted and incorporated the comments give in the previous review somewhat. However, the author(s) is reluctant to accept the major and important section of the manuscript yet. The comments given above were not answered yet. So that, I am afraid to say the manuscript has improved from version one.**
