**PART 1: Review Comments**

| | **Reviewer's comment** | **Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)* |
|---|---|---|
| **Compulsory** REVISION comments | | |
| **Minor** REVISION comments | I would like to congratulate the authors for the work. The use of alternative foods is an excellent choice in moments that traditional ingredients are limited or high prices. The work has merit and so recommend its publication. Only suggest the authors remove table 1 of the introduction and redirect to the second part of the review. Another suggestion is for authors replace the word "discussion" of the topic 2 by anti-nutritive constituents Jack Bean. | |
