PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	A. The author requires updating the bibliographical references. For a better review of the use and research with BGT-II, the author should consider research in Spanish with the use of BGT-II. For example: 1. Merino, C. (2012). Confiabilidad en el Test Gestáltico de Bender – 2da versión, en una muestra independiente de calificadores [Reliability in the Bender Gestalt Test - 2nd version, in an independent sample of scorers]. *Revista de Investigación Educativa, 30*(1), 223-234. 2. Please express my deep appreciation and gratitude for sharing these resources. I have also included and added the three references and have indicated the DOI number for each one. I
Minor REVISION comments	A. Please include the DOI in the relevant bibliographic references	
Optional/General comments	The author should communicate the key points of the research with the BGT-II, emphasizing the small range of research topics, the use in another cultural context (Peruvian context), etc.	I have emphasized the small sample size, the newness of the test and other relevant considerations.
