PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The methodology section is stating 'what can be done' and not what was done. The reader needs to know what the researcher did and not what the researcher can do, this should be corrected to reflect what was actually done.** **'Result and Discussion' should be devoid of method of study. This section should contain only the results and the discussion of such result and not what was done to get the result.** **There is not conclusion in this study. What is presented as 'conclusion' is not conclusion. Conclusions should be drawn from the findings of the study.**	The flow-chart was checked, the methods states the data acquisition the software used and the field survey The unnecessary points discussed as methods has been corrected The conclusion have been corrected
Minor REVISION comments	There is need to read through again and correct grammatical errors. Grammatical errors are actually many in the manuscript.	All grammatical errors are checked and corrected. Thank you.
Optional/General comments		Thank you for this review.
