PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	This is a well-written paper on an interesting topic. My only suggestion is that the colored plots in the figures could be bolder, i.e., they are very faint and difficult to see.	The colored plots in the figures have been bolded
Optional/General comments	I am recommending publication, subject to a minor revision. I need not see the revised paper.
