SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	p. 102, l. 5: m partitions -> m parts Theorem 4.2: delete commas from the denumerator	
Optional/General comments	The author presents generalizations of the binomial coefficients and its properties, and gives combinatorial interpretations for these notions and properties. This paper is well written and interesting. The methods are rather elementary for mathematicians.
