PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	**Authors' response to final evaluator's comments**
Some edits are still required for the sake of consistency, for example: -In Line 15 now becoming Line 16 and Line 17 the author has written 29,231 (note that there is a ***comma*** after 9), it follows that figures such as 28206 in Line 17 and 27805 etc must be 28,206 and 27,805. See also similar figures in Lines 103 and 105. These need to be changed throughout the paper unless the ***comma*** does not matter. -The sentence after the full-stop at the end of "hospital" in Line 18 with part in Line 19 now Lines 20 and 21 is *still* poorly constructed. It reads "Type of hospitals, patients transported and admitted to were Government 23822, Private 2583 and Trust 193." In Line 130 "Our study support" has not been corrected. It must read "Our study supports"	**Corrected**
