SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	**Ms_IJTDH_28019**
Title of the Manuscript:	**IMPACT OF REFUGEES AND INTERNALLY DISPLACED PERSONS ON INTERNATIONAL HEALTH**
Type of the Article	**Minireview paper**

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	
I am sorry, but still can´t see the proper sections required on a paper to be published on a Health Journal. **The information is very interesting and relevant, but content mainly describes how refugees are moving from point A to point B.** **Paper only mentions roughly which are the most common diseases, but it would be more useful and powerful to the reader if you talk about real epidemics: incidence and prevalence of diseases such as gonorrhoea, syphilis, tuberculosis, leprosy, mental disorders, lymphogranuloma inguinale, yellow fever, SARS… those are diseases that are relevant among immigrant and refugees and need to be addressed by receiving Countries.** **I would recommend that you refer to sites such as CDC (Centers for Disease Control) and IOM (International Organization for Migration) in order to obtain more valuable information.**	**The necessary inputs have been made and additional reference added.**
