SDI Review Form 1.6

Journal Name:	**British Journal of Applied Science & Technology**
Manuscript Number:	**Ms_BJAST_40011_A**
Title of the Manuscript:	**HYGROCHROMIC MATERIALS GENERATED BY MULTILAYER OF ELYTRON OF THE NECROBIA RUFIPES**
Type of the Article	**Original Research Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is excellent	
Minor REVISION comments	1) I suggest the following title: Origins of blue spectrum reflections of the elytron of Necrobia Rufipes 2) I suggest the following keywords: Blue spectrum reflections, angle of incidence, reflectance spectrum, relative humidity rate, multilayer 3) I suggest the following paragraph place to the beginning of the section 2 : We use an experimental approach, the spectrophotometer, scanning electron microscope (SEM), and numerical method. Also, we study the behavior of the structure when it is impregnated with water.	
Optional/General comments
