PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**I think experiment should be prolonged not just 7 days. Because long time exposure may change the results altogether.** **Line 133, 171 reference has been superscripted.**	This was the limitation of our study. Mentioned in the manuscript. Most of the animal studies were done for 7 days to observe the acute changes, hence we have conducted it for 7 days. Corrected
Minor REVISION comments	none	
Optional/General comments
