SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	**Ms_IJBCRR_39569**
Title of the Manuscript:	**Ameliorative properties of the chloroform stem bark extract of Abrus precatorius against gentamicin-induced renal damage in rats**
Type of Article:	**Original Research Article**

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)				**Authors' response to final evaluator's comments**
Page number	Line number from top of paragraph	corretions		
1	9,11,14,15,16	Five(5), ssix(6), three(3)	Is it necessary ?	
	Abstract	Exceeding 300 words, not structured..	Headings..(objective, materials methods, results, discussion, conclusion) absent	
	Key words	Not in alphabetical order	Not mentioned term nephroprotective	
	abstract	Blood parameters	Details not mentioned	
	abstract	Serum parameters	not mentionedabout urea level	
2	Read lines 41, 44,45,46,51	Check	Sentence construction	
3	65	Wistar rats weighing 100 and 170g	Weighing between ?	
3	69-71	check	Sentence construction	
3	87	No details about blood parameters.. reference		
5	148,155	check	Sentence construction	

6	179	The result also showed significant depletions of both enzymatic and non-enzymatic antioxidant	Not showing depletion of non enzymatic MDA leve, its level is increasing in toxicant group Please check
7	192, 193	*A=control, B=Gentamicin 100mg/kg, C= 100mg/kg chloroform extract, D= 200 mg/kg chloroform extract, E=200 mg/kg chloroform post treatment*	Not clearly mentioned about drug mentioned in group c d and e (no details about administration of gentamicin)
13	299,300	‘’	‘’
13	Table 2	• Gpx value in group b 11.7±2.0[b]	11.7±2.0[b] it should come as 11.7±2.0[a]
14	306,307	**GSH, Total thiol, and Non protein thiol**	Not mentioned In kidney homogenate
14	310-311	How group F,G,H	not mentioned in table
14	313-314	*A=control, B=Gentamicin 100mg/kg, C= 100mg/kg chloroform extract, D= 200 mg/kg chloroform extract, E=200*	Not clearly mentioned about drug mentioned in group c d and e (no details about administration of gentamicin)

		mg/kg chloroform post treatment		
20, 21 22	404, 405 412,413 420-421	*A=control, B=Gentamicin 100mg/kg, C= 100mg/kg chloroform extract, D= 200 mg/kg chloroform extract, E=200 mg/kg chloroform post treatment*	Not clearly mentioned about drug mentioned in group c d and e (no details about administration of gentamicin)	
22	423	check		
22	429-431	Here specifying blood parameters	But not mentioning above	
24	476,477---480,	Same meaning	Can Avoid line 480	
25	498-499	In that study, GM-	Which study ?	
25-30	REFERENCES	Not uniform	So many mistakes	

Reviewer Details:
