PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The article studied the integrity of the liver and kidney following administration different *Citrullus lanatus* seed extract doses in rats. The author showed the histomorphology changes in liver and kidney as well as measuring ALT, AST and ALP liver activity and Na^+, K^+, Cl^-, HCO_3 and creatinine kidney activity. The results showed that *Citrullus lanatus* seed oil could be a good for the liver and kidney when consumed.**	
Minor REVISION comments	**In the article there are some formatting problems.** **The meaning of the acronyms needs to appear in the first time that acronyms was write in the article.** **In material subitem write "cheesecloth" and not "cheese cloth".** **Use the same formatting for the tables.** **The histological images of the liver and kidney should be in the result item and these results should be discussed better.** ***Mangifera indica* should be in italics**	
Optional/General comments
