SDI Review Form 1.6

**PART 1: Review Comments**

| | **Reviewer's comment** | **Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)* |
|---|---|---|
| **Compulsory** REVISION comments | The topic addressed in the manuscript treats an important concern in public health. The study from a scientific point of view seems to be well done and presents good results, from where to derive valid conclusions.<br>Introduction presents background information, and the motivation for this study.<br>Overall strategy and analyses is well-reasoned and appropriate to accomplish the specific aims.<br>Materials and methods should be complete enough to allow possible replication of the research. So, a sentence to explain how authors perform multivariate analysis should be added.<br>The list needs some attention according to journal instructions. | Thank you for the corrections. |
| **Minor** REVISION comments | **Ethical issue**: a sentence about ethical issues should be added. | Thank you. |
| **Optional/General** comments | | |
