PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**This is a very important research with interesting results. However the following corrections would bring out the findings better:** **TITLE** **L(Line) 2&3-should read "Comparative effects of ..."** **ABSTRAC** **Methodology- Indicate when the animals were treated and period of post treatment observation.** **Results/Conclution-Indicate which of the groups had the highest pre and post treatment changes, followed by.....** **INTRODUCTION** **L 40/41- Remove, 'that attempt.....are'** **L 48 – change 'Trypanosoma' to 'Trypanosome'** **L 58 – remove 'However' and start sentence with 'Treatment' and insert 'also' between 'Trypanosomosis' and 'depends'** **L 63- remove 'compared', change 'effect' to 'effects'** **METHODOLOGY** **L 77- remove 'was' and 'identified'** **L 79 change 'which' to 'where'** **Note: There is some confusion between Groups here and those in Abstract section. For example , whereas Group A is an infected group in Abstract section , it is an uninfected control group in the Methodology section, e.t.c** **RESULTS** **(a) For all the parameters investigated, indicate clearly, which of the groups had the highest pre and post treatment responses** **(b) You could convert Tables 1 to 6 into graphs and use arrows to indicate when treatments with the drug were administered and then**	

	Tables 7 & 8 to 1 & 2 respectively. **(c) Why are the authors silent on parasitemia?** **DISCUSSION** **Try to offer explanations on why the groups behaved differently.** **CONCLUSION** **Refer to my comments on this in the Abstract section in order to answer the question this study aims to answer.** **REFERENCES** **L 249 - '1999a' corrected as '1999'** **L 292 - '2005a' corrected as '2005'** **Note: Some of the Journal names are abbreviated while others are written in full. Be consistent.** **GENERAL** **The authors should carefully go through the manuscript again in order to take care of the grammatical errors.**
