SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	I appreciate the authors focus on the implication of young age, developing countries, and especially on the impact of nutrition on the incidence of diarrhoea. I particularly appreciate the discussion of nutrition on the incidence of diarrhoea on the very young. This concept and implication should be emphasized in the literature, due to the very importance in developing nations for the very young and poor. I appreciate the categories of issues included in the paper that are the following: INADEQUATE KNOWLEDGE POVERTY AND ITS ASSOCIATED FACTORS POOR MANAGEMENT OF DIARRHOEA I find the paper to be informative and though provoking.I cannot find any significant grammar issues.
