SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**Although the title is relevant and innovative there is not enough literature in the introduction to justify the work. The methodology is scanty and does not bring out the real issues. Authors should have often mentioned HCN in cassava but there is nothing to support this (HCN was not analyzed).** **Authors have not discussed their findings in any way but simply reported findings that have no bearing with their work. The conclusion is simply assumptive.**	Corrected as shown in the text highlighted in yellow.
Minor REVISION comments	**Authors are advised to rewrite it taking the comments in the text into consideration**.	Corrected
Optional/General comments
