SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**References are old. They need improvements. The discussion section lacks flow of arguments, and as such it is too week and does not address the main findings. There is no link between the conclusions and the results or discussions.**	
Minor REVISION comments	See my comments on the attached manuscript	
Optional/General comments	The discussion sections is rather vague. It is not an in depth analysis of the findings. Author (s) also include the literature in the discussion. These should be clearly separated.
