PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**No Revision is Required.**	Thanks!
Minor REVISION comments	Suggest some Applications and Areas of Computer Science where the novel proposed algorithm can be applied.	Thank you for your suggestion. The algorithm is very appropriate for solving multimodal optimization problems that arise in Machine Learning applications, I should mention it in the text.
Optional/General comments	The paper contains detailed explanation of novel 1P-ABC Algorithm being proposed which is enhanced version of ABC Algorithm. The Algorithm is properly explained with theory, Mathematical Proofs, Results and Future directions.
