PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**All the literature cited in the discussion should be introduced in the introduction section. The discussion section should discuss the results of this study with former results, e.g. did the study protocols use different dosages, application forms, applications schedules etc.** **Data on side effects are missing. A conclusion that the administration was well tolerated without side-effects data is not correct.**	
Minor REVISION comments	Avoid passive forms	
Optional/General comments
