PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	1. Abstract- last sentence of results and the conclusions section need to be corrected grammatically- ".....and process of women get pregnancy. ***Conclusion:*** Thus providing awareness about the reproductive health and STIs must be started from home itself and the educational institutions have to	Modified Modified

	take...." Please replace by "... the process of women getting pregnant", and please remove “thus"at the beginning of conclusions. 2. Introduction, second paragraph- Needs to be corrected grammatically- "Despite rhetorical attention there is little programmatic guidance as to how best to ensure that women and men having the awareness and education about sexual and reproductive health services that helps them realize their reproductive goals, while ensuring their human rights"- Please change to the following and add the word protection after ensuring- "...men and women have the awareness.....ensuring protection of their human rights.." 3. Introduction, second paragraph, second sentence- the message of this sentence is unclear and needs to be clarified- "... dynamic relationship exists between the manner in which health services and programmes are delivered [5] and the individuals who seek these services will be analyzed in the future scenario..." 4. Introduction, second paragraph- last sentence needs to be corrected grammatically- "Further, the review of the literature showed the clear gaps and.." Please change to ...shows clear gaps and..... " 5. Introduction- "..Male reproductive health is a relatively new concept	Modified and written all in past tense

	in China... " Please clarify as to why the mention of China was made all of a sudden here with no references. The authors need to include clarification and further comparison with the Indian scenario. 6. Introduction- third paragraph, last line -"....variety of formal and informal providers, and health-related behaviour is influenced from many directions, allocation of financial resources play mandatory [7,8]...." The sentence is incomplete- the word role needs to be added after mandatory. The sentence needs to be corrected to -...play a mandatory role. 7. Page3- study design-"selection of subjects is the girls from private engineering college of Tiruchirapalli, India were purposefully determined via red ribbon club of the college. "The sentence construction is incorrect and needs to be corrected to clarify the intended message. Please correct to- "Selected subjects were the girls from a private engineering college of Tiruchirapalli, India, and the selection of subjects was purposefully determined via red ribbon club of the college." 8. Page 3- "***Sampling procedure-***This study adopted three stage selection criterions (willingness, who understand the basic science and person with understanding questionnaire terminology) together with random procedures of select eligible respondents within the study group, population and area.*Willingness* – Some girls are not willing due to shyness and other external environmental pressures, such subjects are	

	not included. *Understand basic science* – the willing subjects were preliminarily tested for their understanding of basic science about the reproductive health including HIV/AIDS. *Understanding questionnaire terminology* – the questionnaire prepared are having some basic and scientific terms; so before distributing the questionnaire the terminology are defined....". Authors have used past and present tenses together throughout the manuscript (an example is mentioned above)- this is incorrect English. Kindly correct to use either only the past tense (which is common for most manuscripts) or the present tense. 9. **While the findings are interesting, the manuscript is full of grammatical errors. The whole manuscript needs to be rewritten in correct English with attention to correcting the grammar throughout the manuscript and proper proofreading. Guidance of an expert in English language may be beneficial.**
