SDI Review Form 1.6

**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                                                                               | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | The article is interesting and brings aspects of ruminant nutrition and animal behavior during digestion for the use of food so that they can be manipulated for greater efficiency.<br>It is recommended to check and care the spaces between each word or sentence, caring style references, and if feasible update these references. | The references have been updated                                                                                                                                                     |
| <b><u>Minor</u></b> REVISION comments      | On line 24 of the script, Silva et al. (2014) correct way to refer and text appearing isolated.<br>If possible update references as there are of late years 1965, 1970, 1981 and 1982 are preferably more recent years; style references for use (. , ; .. and); abbreviation of journals in the right way.                             | Text reformulated line 24 and updated references as requested                                                                                                                        |
| <b><u>Optional/General</u></b> comments    | A good job, except for typos and / or words together, proper use of words in italics, and style of references.                                                                                                                                                                                                                          | conferred requested items                                                                                                                                                            |
