

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2014_AJEA_14590
Title of the Manuscript:	Mycoflora analysis of hybrid sorghum grain collected from different locations in South Texas
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	INTRODUCTION Lines 46-47: The objective of study is 'evaluate the frequency and diversity of fungal genera and species' - You should adapt you objective to the results you have obtained. If not you should go through the identification of all the species ('<i>Alternaria species</i>, <i>Bipo</i>=<i>Bipolaris species</i>, <i>Coll</i>=<i>Colletotrichum species</i>, <i>Aspergillus species</i>, <i>Phoma species</i>') MATERIAL AND METHOD Line 54: - How many fields have been sampled in each county? - How many panicles have been selected by field? - Describe the method used for panicles selection in the field. Line 61: 'Identification of fungal genera and species' (You have identified only 3 fungal species and 5 genera) RESULTS AND DISCUSSION Lines 70, 75: '~~species~~', genus NB: - The unknown genus occurs in many counties and its frequency (1.7 %) is more important than those of (<i>Colletotrichum</i> (0.1%), <i>Aspergillus</i> (0.1), <i>Fusarium thapsinum</i> (0.5), <i>Fusarium semitectum</i> (1.2%). YOU	We thank you for your valuable comments and suggestions. The objective was amended to include the word "genera." The number of fields sampled and the sampling pattern and method included in the Materials and Method section. Where applicable the word "genera" is inserted. The word "genus" is inserted. The unknown cultures were discarded.

SDI Review Form 1.6

	SHOULD DESCRIBE UNKNOWN GENUS. In each table, you should put after the 'Mean', the STANADRD DEVIATION OF THE MEAN.	
Minor REVISION comments	Line 177: increased ~~significantly~~ (You can't use the word 'significantly, since you have not used any statistical analysis)	The word "significantly" is deleted.
Optional/General comments
