Subject: RE: Request for editorial decision for manuscript number 2014_AJEA_12254

With reference to our previous correspondence, I send as an attachment the checked manuscript entitled **“Nitrogen (N) and Phosphorus (P) Fertilizer Application on Maize (Zea mays L.) Growth and Yield Performance at Ado-Ekiti, Southwest Nigeria”** (2014 AJEA 12254).

Despite of the review process, there are a lot of technical mistakes in the manuscript.

The results presented in the tables have not been sufficiently described.

Some data are presented twice (in tables and in the text).

In some places description of the results is not in accordance to the data presented in tables (see my remarks in the attached manuscript) .

References have been prepared not in accordance with the AJEA guide for authors (it concerns positions: 2, 3, 4, 6, 7, 9, 11, 12, 14, 15, 19, 20, 21, 23, 25, 26, 28, 29, 30, 32, 35, 37).

Abstract has been prepared in a manner not consistent with the instructions for authors of AJEA.

Authors' contributions should be added.

However, the manuscript shows interesting and important results. In my opinion, it is justified to consider its re-evaluation after the improvement of current weaknesses.

Editor's Details:

Dr. Edward Wilczewski,

Faculty of Agriculture, University of Technology and Life Sciences in Bydgoszcz, Poland
