

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2014_AJEA_14965
Title of the Manuscript:	Integrating Mechanical and Chemical Control Treatments to Manage Invasive Weed Chromolaena odorata (L.) R.M.King and H.Robinson in Grassland Area
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Integrating Mechanical and Chemical Control Treatments to Manage Invasive Weed <i>Chromolaena odorata</i> (L.) R.M.King and H.Robinson in Grassland Area Abstract Can be better written to remove the redundant in lines 4-6. Introduction should include published work discussing the herbicidal activity on soil. (Safi J., Awad Y., El-Nahhal Y. (2014) Bioremediation of Diuron in Soil and by Cyanobacterial Mat. American Journal of Plant Sciences, 2014, Vol. 5, No 8, 1081-1089.)	

SDI Review Form 1.6

	El-Nahhal Y., Awad Y., Safi J. (2013) Bioremediation of Acetochlor in Soil and Water Systems by Cyanobacterial Mat. International Journal of Geosciences, Vol 4, No 6,pp 880-890. M&M section does not include control sample of the herbicide application. Authors should have control samples (grass land without any treatment). They may forgot to add it. Also this section does not include how the herbicidal activity was calculated. The can use the above mentioned reference and this one El-Nahhal Y.; Nir S.; Polubesova T.; Margulies L.; Rubin B. (1998) Leaching, phytotoxicity and weed control of new formulations of alachlor. <i>Journal of Agricultural. Food Chemistry</i>. 46:3305-3313. R&D section Authors mentioned in Table 1, "other weeds" This

	terminology was not described in M&M section. It is not possible to present results are not described who they were produced. The scales in figure 1 should be the same. Conclusion section should not provide recommendation since it is not the objective of the work. Nevertheless, the authors did not connect the results and discussion with the title to show the integration. References section Authors should add the full date of the websites they site in there paper.
