SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	• improve the resolution of Fig. 1 • detail the methods of chemical analysis • The item 3.5 needs to be better explained because it was not clear that the reduction of fish production is due to contamination by pesticides as there are several factors that could interfere. Explaining	We have changed and increase the resolution of Fig. 1 We have analysed the fertilizer and chemical used status based on questionnaire survey from different kinds of associated peoples like fishermen, crop farmers, pesticide dealers and retailers and other local stakeholders living in and around the beel. Also from Upazila Fisheries Office during the study period. Ok, we have included another table in the item 3.5 (Table 9) to show the details of species which are being disappeared and also being the verge of extinction.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
