Title of the Manuscript:	Chemical and Pesticides uses status in the Chalan beel, Bangladesh and its impact on fish Biodiversity

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I think that the manuscript is much better than before, a careful review must be undertaken to check for spelling and grammar errors, i.e.: sometimes the word "use" should be replaced for "usage". The last sentence is also odd... "However, more analytical research needed to focus on" . Sometimes <i>beel</i> is in italic other not. Check for other inconsistencies. Please check the axis title in fig 2. "Yea" should be "Year". Review measure units for correct spell, i.e.: sometimes "mt" appears "MT"; 114161 hectors The supplementary material (questionnaires) should be mention somewhere in the manuscript. Probably in line 131, after "Initially a draft questionnaire was prepared following other relevant questionnaire and information. Then it was pre-tested among 10 respondents from the <i>beel</i> area"	Thank you very much for your valuable suggestions. I have changed the text in the manuscript accordingly. Sorry for the mistake. I have changed the "Yea" to "Year". I reviewed the spell of units and changed whenever necessary. Mentioned in the manuscript.
