SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract: Reference in abstract should not include Introduction: It is very short. In some cases, it seems a telegram. Some end point is necessary. Oil extraction: Why do you use sodium hydroxide in the oil extraction? As catalyst? There is not chemical reaction. Acidic number: Check the style of paragraph. Viscosity: Check the style of paragraph. References: Check the style of some references.	The title error has been corrected and the abstract reworded. All other observations have been looked into. However, it must be stated that chromatography method will not only separate the compound it would identify and give the mass of each constituent.
<u>Minor</u> REVISION comments	Page 1, line 8: "ie" should be is Page 2, line 46: 2 instead of 2.0 References is the text are between () and []. Please, follow the guidelines. Page 8, line 208: 3 instead of 3.0 Page 16, line 446: 4 instead of 4.0	
<u>Optional/General</u> comments	It is necessary to review the English of the paper and make some changes before the paper can be accepted.
