

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	2014_BJMCS_15028
Title of the Manuscript:	Polynomial operator in the shifts in discrete algebraic dynamical systems
Type of the Article	Original Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. In the second paragraph of the Introduction the sentence in italics should read '<i>polynomial operator in the shift</i>'. <i>The last sentence in the Introduction could read, '....reconnect with classical algebraic structures, giving discrete...'</i> 2.2 The second paragraph could read, '...and an element ...' 2.2 The first paragraph below Definition 2.1 could read, '...to the topology of pointwise convergence' The second paragraph could read, '...on the equation 2.3 which uses 2.2' In Definition 3.1, this line could read ...the adjoint of f is the linear... Corollary 3.5, this line could read, 'Using our notations, a discrete algebraic dynamical system is then...'	Agree – the word 'in' is missing. Agree – mistyping: the name "algebra" is not correct, it should be the adjective 'algebraic'. Agree – mistyping: 'an' and not 'a' because the word 'element' begins with a vowel. Agree – mistyping : it should be the name 'convergence' and not the verb 'converge' Agree – the word 'is' must be deleted. Agree – mistyping: 'is' and not 'if'. Agree – singular and not plural.
Minor REVISION comments		
Optional/General comments	The abstract, introduction, main work and conclusions (a,b,c) are in authentic coordination. Congratulations.
