

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_14945
Title of the Manuscript:	ADAMS TYPE HYBRID BLOCK METHODS ASSOCIATED WITH CHEBYSHEV POLYNOMIAL FOR THE SOLUTION OF ORDINARY DIFFERENTIAL EQUATIONS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. No discussion on how the author calculates the order and error constant of the methods 2. The existing method results which is based on an article by Odekunle M. R. et. al. (2012) cannot be found anywhere in the paper. I think it is not appropriate for the author to ask the readers to refer the results in Odekunle M. R. et. al. (2012). 3. No discussion on the computer implementation of the new methods as block methods.	Definition of order and error constants is now included in the paper. Following the analysis of the definition we shall obtain the order and error constants.
<u>Minor</u> REVISION comments	Line 148, det $\begin{bmatrix} \lambda & 0 & 0 & 0 \\ 0 & \lambda - 1 & 0 & 0 \\ 0 & 0 & \lambda & 0 \\ 0 & 0 & 0 & \lambda \end{bmatrix}$ should be 1	Corrected
<u>Optional/General</u> comments
