Subject: Re: Fwd: Request for editorial decision for manuscript number 2014_BJMCS_14945

I have made an analysis of reviews of the manuscript number 2014_BJMCS_14353. The reviewers accept the paper for publication in British Journal of Mathematics & Computer Science after having made a revision. The authors have made all of corrections from the reviews. But I have one remark. Reviewer no. 2 requires in his report the spelling "Chebyshev polynomials" to be done uniformly throughout in the paper. He have explained this as follows: "Based on the revised version of the paper titled "ADAMS TYPE HYBRID BLOCK METHODS ASSOCIATED WITH CHEBYSHEV POLYNOMIAL FOR THE SOLUTION OF ORDINARY DIFFERENTIAL EQUATIONS" by A. M. Badmus, Y. A. Yahaya and Y. C. Pam, the spelling of CHEBYSHEV in the paper has not been done uniformly. Hence, the spelling needs to be done uniformly throughout in the paper. For example in the third line of the abstract it is spelt CHEBYSEHEV, while in the Heading of the paper it is spelt CHEBYSHEV. So my query is that the spelling should be done uniformly throughout in the paper."

Therefore, I suggest the notation "Chebyshev polynomials" (i.e. capital "C") which is generally acknowledged notation, instead of "chebyshev polynomials". The authors should correct the paper. Then the paper will be accepted for publication.
