Manuscript Number:	2014_BJMMR_10435
Title of the Manuscript:	Use of Cranial Computed Tomography(CT) in Elderly Patients Presenting after a Fall: Can We Predict Those Having Abnormal Head CT Scans

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ol style="list-style-type: none">1. All the required changes have been corrected well.2. Regarding the tables, the comment was to remove only the <u>internal</u> horizontal and vertical lines; leaving the horizontal lines of first and last rows. This I did for you, do the same for (Table 1) yourself.3. Still you need to put Caption (headings of the columns) to the first column of tables 3, 4 and 5.	<p>The Tables 1-5 have been edited to contain lines delineating the content of the Tables. The captions have been inserted above the first columns of Tables 2,3,4,5 as requested.</p>
