Optional/General comments	<p>This Manuscript entitled "Sexual Behaviours of Secondary School Students in Port Harcourt" aimed to assess the sexual behaviours of secondary school students in Port Harcourt. It has been revised accordingly. The manuscript is well written, and the result is sound and it may have potential importance for the local disease prevention. It is well known that there is a high rate of risky sexual behaviours amongst the secondary school students in Port Harcourt. Intervention program aimed at sexuality education and behavioural change should be inculcated into secondary school education curriculum in Port Harcourt.</p> <p>I recommend it to be published without further revision.</p>
