PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	<p>Line 27-29 – I do not believe that you can assure that Se is an effective inhibitor, you may suggest and try to prove it along the manuscript</p> <p>Figure 1 – Please cut the image, the white border around it, it is occupying too much space that is lost, or maximize the image</p> <p>Figure 2 –Is this picture yours?</p> <p>Line 96-98 – is this a reference or your own opinion?? It is an important finding and I believe you should explore more this information</p> <p>Legend Fig 1 – too long, consider removing the last sentence or put it on the text</p> <p>I like the manuscript, it is well written and the subject is very interesting nowadays. In order to make your manuscript more valuable I believe you should put some information in the beginning of the text about the importance of Ebola.</p>	
Minor REVISION comments	<p>Line 125 – “viruses,there” missing a space</p> <p>Remove lines 262-265</p>
