

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Medicine and Medical Research
Manuscript Number:	2014_BJMMR_13820
Title of the Manuscript:	Dose-dependent Modulation of Lipid Parameters and Inflammatory Biomarkers by δ -Tocotrienol in Hypercholesterolemic Subjects

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The first comment from my previous review was prematurely truncated. It addressed the possibility of a seasonal effect being possible for the significant results seen with the 250 mg dose since the study design was of fixed sequence and all subjects were studied simultaneously. Please include this possibility in the Discussion.
