FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Authors and/or Managing Editorial Staff of the Journal should correct the remaining typographical errors.</p> <p>The paragraph added by the authors before the conclusion at my recommendation is too long. I would end it after the 10th line. That should be adequate.</p> <p>It has been a long road to revise and repair this manuscript. I do believe, however, the authors have stuck to the task and the final product is considerably improved. If the above final changes are made, the manuscript need not be resubmitted for further review.</p>
