Title of the Manuscript:	Guillain-Barré syndrome induced by Campylobacter jejuni
Type of the Article	Review Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The revised paper changed a little. As this paper was a comprehensive review (especially for older papers) on GBS and <i>C. jejuni</i> , but avoided the outbreak related content. The reader's attention on this review will be lower.
