

SDI Review Form 1.6

Journal Name:	British Microbiology Research Journal
Manuscript Number:	2014_BMRJ_14379
Title of the Manuscript:	Phenotypic and genotypic characteristics of phosphate solubilizing rhizobacteria isolated from fababeanrhizosphere in Meknes region, Morocco
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. The entire article is well and good. But it requires photographs of bacterial cultures that were isolated and studied. 2. Title of the article must be containing botanical name with italics.	1.  2. "Isolation and characterization of phosphate solubilizing rhizobacteria isolated from faba bean (<i>Vicia faba</i> L.) rhizosphere in Meknes region, Morocco"
Minor REVISION comments	1. There may be minor corrections that includes mainly punctuation marks at many places of the article. For instance in lines 22-23. 2. The methodology of the research may be elaborated with some details of methods used in the study of PSB. 3. Conclusion also required some more explanation of the study.	1. they were corrected 2. The methodology of the research was briefly described 3. We tried to give the essential
Optional/General comments	The work is very good and further studies may be encouraged. The isolated efficient strains must be studied at field level and technology should be developed to reach farm level application.
