SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This is a valuable study, however I believe that the sample size is small for this type of screening studies as the fatty liver among obese patients is common also including liver ultrasound will confirm the findings. Even with these limitations this study will add to the body of knowledge.	
<u>Optional/General</u> comments	This is a valuable study and will add to the body of knowledge. Plagiarism issue-38% as in the attached data sheet
