

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	2014_IJBcRR_9806
Title of the Manuscript:	ANTIPLASMODIAL ACTIVITY OF ETHANOLIC LEAF EXTRACTS OF SPILANTHES ULIGINOSA, OCIMUM BASILICUM (SWEET BASIL), HYPTIS SPICIGERA AND CYMBOPOGON CITRATUS ON MICE EXPOSED PLASMODIUM BERGHEI NK 65.
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Page 4, section Determination of Suppressive Test: Exactly eightyfour (84) swizz mice of both sexes were randomly divided into 5 groups namely; A, B, C, D and E of 6 mice per group. Groups B, C and D were subdivided into three (3): B1, B2, B3, C1, C2, C3, D1, D2, and D3. This part is not understandable. There is a problem with the number of rats used. Please review and correct the number of rats or clearly explain the methodology. Page 5, section Determination of Curative Test (Schizontocidal Activity) : IDEM Exactly eighty four (84) swizz mice of both sexes were used. Seventy two hours later, the rats were divided into 5 groups namely; A, B, C and D of 6 mice each. Groups B, C and D were subdivided into three (3): B1, B2, B3, C1, C2., There are 4 groups of rats and 5 groups of 6 rats do not give 84. Where are subgroup of group C and D? Page 7: Table 2 (title): Effect of ethanolic of leaves extracts of <i>Spilanthes uliginosa</i> (Sw), <i>Ocimum basilicum</i>, <i>Hyptis spicigera</i> and <i>Cymbopogon citratus</i> on early malaria infection: review this part of the title (for example : Effet of ethanolic extracts of or Effect of ethanolic leaves extracts) Page 8: Table 3 (title): put scientific names in italic	Corrected. Corrected. Corrected. Corrected.

SDI Review Form 1.6

	<i>The author could compare the results with previous work:</i> <i>For example: Cymbopogon citrates. Planta medica 71:1 2005 Jan pg 20-3</i>	Discussion detailed enough.
<u>Minor</u> REVISION comments	Page 3, line 8: write Artemisia Given the number of rats used, authors should ask permission from the ethics committee. However, it depends on the laws in the country and this does not affect the quality of work	Corrected. Ethical approval now stated.
<u>Optional/General</u> comments	Reference number in text: It would be better if the references are numbered in order that they appear in the text. The author must standardize references.	Corrected. Corrected.
