PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Paper is interesting and brings new data on the use of herbicides. Objectives, research methodology is well described.	
<u>Minor</u> REVISION comments	Paper must finished so as English grammar as well as writing according to the instructions.	I am sorry for the errors (lack of space between several words). I do not know what happened. I revised very carefully the final version submitted on line. I assumed that a problem occurred during the on line submission process. Again, I am really sorry for that. All these errors were corrected on the revised version.
<u>Optional/General</u> comments
