Subject: RE: Request for editorial decision for manuscript number 2014_IJPSS_11026

As pointed out by the reviewers the manuscript style and the English languages need great improvement.

Also, the methods must be written a more scientifically. Here are some examples of writing mistakes:

L 102: triplicate, not thriplicate.

L 114: Duncan test, what was the P value.

L 228: and elsewhere in the paper, mixture not mix.

L 285: average, not average; diseases, not desease

Editor's Details:
