| <b>Compulsory</b> REVISION comments | <p>It is an interesting manuscript dealing with a topic that recently has been at the center of scientific interest. However, it needs major revision before it can be published.</p> <ul style="list-style-type: none"> <li>• Authors should check for syntax errors. In some parts the manuscript is hard to follow.</li> <li>• In results are mentioned parameters that are not presented in detail at methods. Please add them in detail in methods.</li> <li>• Tables 2-3 should be one, the same for tables 4-6</li> <li>• Metformin is not a sulfonamide!! That's a major discrepancy, please correct.</li> <li>• At the beginning of the discussion, the main findings of the article should be stated and not at the third paragraph.</li> <li>• Are there any similar studies? If so, please add them to the discussion explaining and comparing their results with that of the present study.</li> </ul> |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                               |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                               |
