

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2013_IRJPAC_5890
Title of the Manuscript:	Removal of Fe(II) from Aqueous Solution by Maize Stalks as a Cheap Biosorbent
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Introduce analytical and instrumental techniques Kinetics of reaction , adsorbent dosage should be increased for maximum percent removal more than 49%. SEM technique is required to study the surface morphology.	- SEM technique is a useful technique, but it is expensive and it exceeds our ability.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Topic representing.. aqueous solution.....better to represents either it is simulated model system or waste water.	- ok
