PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors have revised the original one very well. The revised paper is now much better. The content and analysis in the revised paper are explained much better and the figures are also much clearer now. However, I still have some important suggestions to be considered by the authors, as follow: 1. The figure in page 2 should be numbered as "Figure 1". Every figure should be numbered accordingly. 2. The References should be arranged in <u>the alphabetical order</u>. I have found that some references are not arranged in the correct order. Please re-arrange them carefully and particularly. For example: - Abiama, G. (2011a) should come earlier than ADBG (African Development Bank Group) (2010). - Kimaryo, G. (2012) should come earlier than Kothari, C.R. (2004).	The final evaluators' comments are valid and have been addressed accordingly. The word Figure 1 has been placed in the respective section and all words "figures" in the text have been abbreviated. All references have been arranged in the alphabetical order. <u>See the yellow highlighted colours</u>
