

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	2014_JAMPS_14855
Title of the Manuscript:	Isolation and Structural Elucidation of the Most Active Antidiabetic Fraction of Corchorus Olitorius Seed Extract
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Title should be replaced with "Isolation and Identification of Active Antidiabetic Fraction of <i>Corchorus olitorius</i> (Ewedu) Seed Extract" In blood sugar lowering experiments no statistically significance difference has been observed this may be due to use of mixed group of male and female rats or few animals in each group as evident from standard deviation values. Whereas in terms of percent blood sugar lowering minor differences can be seen. Identified compound should be pharmacologically tested for confirmation of significant antidiabetic activity. Formatting and spelling errors in text should be corrected. References are not as per format of journal. As per stated in manuscript the presented work is continuation of previous work, as well as they are willing to continue this work. I suggest, rewrite your manuscript for better understanding.	The 3rd reviewer's suggestion preferred and adopted 5 rats were the list used per group It was bioassayed in alloxan induced diabetic rats Corrected Corrected Done
<u>Minor</u> REVISION comments
