PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript presents the results of a study on the practice of self-medication with antibiotics among civil servants in Uyo, Nigeria. The study is interesting and opens the field to a few health issues such as antibiotic resistance bacteria. The study was carried out using a questionnaire and analyzes the different socio-economic characteristics that may influence self-medication. Emerge from this study the need for a more restrictive rule that prevents the supply without a medical and health education as early as the young school age. The manuscript is well done	I appreciate your encouragement.
