SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It's necessary to revise the abstract as follows. Aims: Study Design; Place and Duration of Study: Methodology: Results: Conclusions: Key worlds → Keywords Please check the reference in line70 in Introduction. Nitric oxide release and microglia function[127] In line 77 in Introduction Multiple investigations [35,36,37,38,39] → [35-39] Correct other sentences citing references. Table 3. Dynamics of changes in neurological status of patients with ADEM over 24-month observation period → Changes in neurological status of patients with ADEM over 24 month period It's vague about the meaning of "After treatment" in Table 3. In line 206 Department of the Kyiv City Clinical Hospital No 4 What's the No 4?	

SDI Review Form 1.6

<u>Minor</u> REVISION comments	Please, write the Key words in <i>Italic</i> type. Add abbreviations below the Keywords. There are many paragraphs composed of only one sentence. Please check and rewrite. Which brand of IVIG did you prescribe?	
<u>Optional/General</u> comments	There are a lot of unnecessary brackets in your manuscript. Please check and rewrite. e.g. line 37-38 in Introduction by the presence of inflammation (demyelination) e.g. line 147-148 the use of traditional methods (vascular-metabolic therapy) What's the vascular-metabolic therapy? It's necessary to add an ethical consideration in METHODS. Did you obtain a written informed consent from each patient?
