**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<ol style="list-style-type: none"> <li>1. Check the marks in Figure 5. The Miller index (200) and (400) may be marked wrong because (200) should be closer to the spot at center.</li> <li>2. The title has English grammar error. "ELECTRON DIFFRACTION AND ELECTRON MICROSCOPYSTUDY OF FILMS CuGaS<sub>2</sub>" should be changed into "ELECTRON DIFFRACTION STUDY OF CuGaS<sub>2</sub> FILM".</li> </ol>	<ol style="list-style-type: none"> <li>1. I agree with all comments and Fig 5 has been changed.</li> <li>2. The name has been changed as recommended.</li> </ol>
<b><u>Minor</u></b> REVISION comments	Although the Abstract states that the paper is investigating amorphous CuGaS <sub>2</sub> amorphous films, most of the results as shown Figure 4 through 7 are about single crystals or crystalline films. The authors may wish to discuss this issue.	I agree with all comments and necessary changes will be made to the paper.
<b><u>Optional/General</u></b> comments	The technical content of the paper seems interesting, but the English needs to be polished. In addition, the structure of the paper needs to be modified. For example, a section of Conclusion is needed. Some paragraph is one sentence; Combining the sentences into a paragraph may be better.	The English has been polished and checked again.
