SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The paper is interesting. Before publishing the author has to make improvements. The author has to prove all the theorems or they should be cited. The statements and the formulae should be also cited. The citations have to be numbered following the sequence of numbers in the references (page 1). The English language has to be improved too.	Thanks for pointing out this. I give proof of theorem, and I explain it. Let me know if I am wrong. Thank you again for your helpful suggestions.
<u>Optional/General</u> comments
